### ***Retro rebellion!***

Kristen Tennyson's tote bags defy the traditional rules of the tote bag by embracing the reclaimed vintage fabrics and uniting them with quirky trinkets and industrial materials. Rather than the tote bag, once seen as the same old, two plain square pieces of cotton fabric with a handle, Tennyson totes are unique re-creations using a myriad of retro fabrics and materials. Vinyl, seat belts and garden hoses abound, revelling in their new-found glory. Kristin uses recycled and environmentally friendly products to create distinctive and individual wearable art. Found objects adorn Tennyson totes; hand-made in a kaleidoscope of fabrics, sizes and themes. Kristin encapsulates colour, nature and culture with her own unique approach. Experience a joyous retro-spective of the rebellious kind with Kristen Tennyson's exceptional range of tote bags.

***Be a rebel and wear a Tennyson tote from (m)art!***
